

...We Need Your Contact Information!

December's ice storm and power outages demonstrated the need to update customer information files. **For safety reasons, it is vital that we have correct contact information for our members, and an emergency contact who will know how to reach you.** Whenever your contact information changes, please contact the co-op to update your files.

Please complete the form on the back of this insert with your current information, and return it to KREMC with your monthly payment. We appreciate your assistance in helping us accurately maintain this important information.
