

# Finally someone has the power to help the environment. You!

When you sign up for Kosciusko REMC's EnviroWatts program, we'll buy the energy to meet your needs from an environmentally preferred source.

By joining other participating KREMC members, you'll help encourage power generation from such renewable resources as biomass, sun, wind and water. And part of every EnviroWatts dollar will support our efforts to help make our local environment better through EnviroWatts grants to local not-for-profit groups.

Ready to help invest in the development of alternative energy sources? Fill out the enrollment form on the back, and return it with your monthly payment. Or call Kosciusko REMC at 1-574-267-6331 or 1-800-790-7362 to sign up for EnviroWatts!
